

## SKA – INFORMATION RELEASE – FEBRUARY 21<sup>ST</sup> 2010

# Superkarts Australia restructures in line with CAMS categories

February 19, 2010 Link - <http://www.cams.com.au/en/Media/News/2010/Superkarts-Australia-restructures-in-line-with-CAMS-categories.aspx>

**Fridays' media release from CAMS is self explanatory.** CAMS officials and SKA Directors met in Sydney in December to discuss options forward for Superkarting at National level. CAMS wanted SKA to accept the responsibilities of Category Administration at National level, and remain viable to run the Australian Superkart Championships. SKA was considering aspects of a restructure in any case, so has embraced the opportunity for Superkarters to have an entity to represent them at this level.

**What is SKA?** Superkarts Australia Pty Ltd is the CAMS appointed Superkart Category Administrator and exists to run the Australian Championships and Nationals for Superkarters, and will seek other high level racing opportunities, and may assume other sporting responsibilities in time.

**What does this mean for Superkarters?** SKA understands that superkarters want a viable Australian Championship and ongoing stable and secure category administration. This structure separates SKA from state level Superkarting and can undertake the business situations necessary.

**2010 – A new era for Australian Superkarting.** SKA will now affiliate directly with CAMS and offer Superkarters membership of a national Superkart body so as to ensure the viability of providing an Australian Championship for all Superkart classes.

**Why should I join SKA if I am already a Superkart Club member?** The restructure that CAMS has approved for SKA ensures that both Superkarters and Superkart Clubs are not disadvantaged but in fact are advantaged by the terms set. SKA for its part has ensured that the generous Registration Scheme discount actually will reimburse Superkarters for the cost of their joining SKA. An efficient method of funding for any entity that conducts racing on behalf of racers entails paid-up memberships. SKA is now a well established organisation with approval from CAMS and is recognised as a proper and professional business entity and superkart category administrator by major motor sport promoters and media.

**What does membership of SKA do for me, a superkarter?** Your membership of SKA supports the survival of the Australian Superkart Championship and Nationals. It secures the position of your sport along side categories like Formula Ford. Membership entitles you to the significant race entry discounts explained in our Terms and Conditions document. You can retain a nationally registered Race Number. We're not HRT or FPR just yet, but there will be more benefits in times to come.

**What's next?** SKA will shortly release the SKA Membership Application Form and 2010 Registration Scheme for the Australian Superkart Championships and Nationals.

**Please ignore any rumours and innuendo – SKA IS HERE FOR YOU AND HERE TO STAY -** for details and facts discuss any concerns or queries with an SKA director or contact us. Further releases will follow very soon.
